Art Unit: ***

1. (Currently Amended) An outdoor illumination apparatus, comprising

a housing;

a speaker mounted in the housing ; and

a lamp mounted in the housing, the housing including a first plurality of outwardly extending fins, ~~the fins~~ positioned to direct ~~sound and~~ light from the lamp housing through the ~~fins~~; and

an acoustic reflector positioned below the speaker and within a sound wave path, the housing including a second plurality of outwardly extending fins positioned circumferentially around the acoustic reflector to direct sound from the speaker.
2. (Original) An outdoor illumination apparatus according to claim 1, wherein the housing includes an upper portion and a lower portion, and wherein the speaker is positioned in the lower portion and the lamp is positioned in the upper portion.
3. (Original) An outdoor illumination apparatus according to claim 2, further comprising an acoustic reflector mounted in the lower portion of the housing.
4. (Original) An outdoor illumination apparatus according to claim 3, wherein the acoustic reflector is generally cone-shaped, and wherein the speaker is positioned above the acoustic reflector.
5. (Currently Amended) An outdoor illumination apparatus according to claim 1, wherein the first plurality of outwardly extending fins and the second plurality of outwardly extending fins extend circumferentially about the housing.

6. (Original) An outdoor illumination apparatus according to claim 1, further comprising a base positioned to support the housing over a surface.

7. (Original) An outdoor illumination apparatus according to claim 6, wherein the base includes an electrical terminal for providing power to the speaker.

8. (Original) An outdoor illumination apparatus according to claim 1, wherein the speaker has a front and a rear, and wherein the rear of the speaker is located in a substantially enclosed chamber.

Claims 9-23 (Cancelled).

24. (Currently Amended) ~~A combination illumination and sound~~ An outdoor illumination apparatus according to claim 23 6, further comprising a transformer mounted in the base.

25. (Currently Amended) ~~A combination illumination and sound~~ An outdoor illumination apparatus according to claim 23 6, wherein the base includes an electrical terminal that connects to at least one additional ~~combination outdoor illumination apparatus and sound system~~ to define a multi-speaker sound system.

Claim 26 (Cancelled).

27. (Currently Amended) ~~A combination illumination and sound~~ An outdoor illumination apparatus according to claim 48 1, further comprising a controller coupled to the speaker, the controller remotely located from the housing.

28. (Currently Amended) ~~A combination illumination and sound~~ An outdoor illumination apparatus according to claim 25, further comprising a controller coupled to the system, wherein the controller controls the sound produced by the speaker at least partially independently of at least one additional ~~combination outdoor illumination apparatus and sound system~~.

Claims 29-38 cancelled
